## **A9X VOODOOSHIELD ANTI MALWARE SOFTWARE PROTECTING YOUR VESSELS, REMOTE SITES AND OFFICES FROM CYBER THREATS**

Fully integrated with A9X Cyber Detective security identification, monitoring, auditing and reporting software, A9X VoodooShield provides the ultimate protection against viruses, malware and zero-day cyber threats. It is ideal for pay-per-MB and low bandwidth Satcom systems, as it requires no large virus signature update files unlike traditional anti-virus software services.

A9X is the exclusive distributor for VoodooShield's maritime market.

# KEY BENEFITS

**YOUR ANTI-VIRUS IS A FILTER, VOODOOSHIELD IS A LOCK**

Let's pretend a PC is a coffee pot.....

Traditional Anti-Virus programs behave like a filter

A9X VoodooShield behaves like a lid (an auto-toggling computer lock)

# HOW VOODOOSHIELD IS DIFFERENT

COMPUTER LOCK + MACHINE LEARNING / AI + MULTI-ENGINE BLACKLIST SCAN

## SIMPLE APPROACH

Traditional antivirus software can no longer keep up with the 300,000+ new viruses and malware created daily, so VoodooShield locks your computer and blocks all new, non-whitelisted executable code (including viruses and malware), while your computer is running a web app (browser, email, etc.). Traditional antivirus is great, but your computer should be locked when it is at risk.

## THE VOODOOSHIELD DIFFERENCE

Voodoo Shield uses a proprietary proactive whitelist snapshot approach to virus and malware protection. Voodoo Shield is a patented toggling Desktop Shield Gadget / Computer Lock that automatically toggles to ON and locks your computer when you start a web app. There is never a good reason to let new, non-whitelisted executable code run while a web app is running.

## FOR MARITIME VESSELS AND OFFICES

Our patented snapshot technology automatically builds the tiny, customized whitelist for the end-user, resulting in the smallest possible whitelist and attack surface in the industry. By utilising ML and AI, VoodooShield learns what to block. You don't have to spend time setting up your white-list. When used properly, VoodooShield will effectively block all browser and email based viruses and malware. VoodooShield does not remove existing viruses. VoodooShield is also the only deny-by-default product that protects the entire Windows system, as opposed to only protecting the Windows components that are currently being exploited by malware authors. A9X recommends vessels also install A9X Defender to add an additional layer of protection and to remove any viruses from the PC.

*"WELL, THE TECHNOLOGY IN VOODOOSOFT'S VOODOOSHIELD 2.0 IS SO SIMPLE AND EFFECTIVE, IT MIGHT AS WELL BE SOME KIND OF MAGIC." NEIL J. RUBENKING, PC MAGAZINE*

*VOODOOSHIELD IS THE ONLY DENY-BY-DEFAULT SOLUTION THAT HAS EVER BEEN RECOGNIZED IN THE PCMAG "BEST ANTIVIRUS PROTECTION" TOP 10 LIST*

*"VOODOOSHIELD IS NOT BASED ON SIGNATURES OR BEHAVIORAL ANALYSIS, SO IT CAN BE INSTALLED NEXT TO ANOTHER ANTI-VIRUS. VOODOOSHIELD CAN COMPLETELY REPLACE TRADITIONAL ANTI-VIRUS SOFTWARE, FAR OUTWEIGHING THE EFFECTIVENESS OF PROTECTION AVAILABLE IN THIS RANKING OF SECURITY SOLUTIONS." ADRIAN ŚCIBOR, AVLAB*

*"ANTI-VIRUS TOOLS ARE A USELESS BOX-TICKING EXERCISE SAYS A GOGGLE SENIOR SECURITY ENGINEER – KIWICON DARREN BILBY HAS ASKED FELLOW HACKERS TO EXPEND LESS EFFORT ON TOOLS LIKE ANTI-VIRUS AND INTRUSION DETECTION TO INSTEAD RESEARCH MORE MEANINGFUL DEFENSES SUCH AS WHITELISTING APPLICATIONS."*
